

# Tile Production Plant

- A powder feeder of the brand "SACMI", model "ALM924";
- A hydraulic press of the brand "SACMI", model "PH 3800";
- Upper punch plate;
- Attack group;
- Mold input with 6 outputs;
- Matrix;
- Inverter automatic line;
- A vertical dryer of the brand "SACMI", model "EVA 984";
- A discharge device model "NUE";
- Sound insulation cabin;
- Air-oil cooling unit;
- Control set and gas meter for the "EVA 984" dryer;
- COOKING SECTION composed of "SACMI" single-layer roller kiln, model "FMS250 / 119.7";
- Drying tunnel model "ELS";
- Automatic adjustment of suction through inverter;
- Automatic adjustment of combustion air by inverter;
- Emergency auxiliary electric generator;
- SECTION OF MOVEMENT AND STOCK OF CRUISED MATERIAL AND COOKED IN BOX OF ROLLS composed by box of load;
- Drainage box;
- Oven output unit;
- Connection line; "Raccordatrice" to roll;
- Emergency tape;
- Charging unit;
- Double row output unit;
- Twenty-eight cars;
- Control mask; Two "TGV's";
- Battery exchange station;
- Two replacement batteries;
- Two battery chargers;
- an operational station;
- Automatic movement for the dryer model "ELS";
- CHOICE AND PACKING SECTION composed of double row connecting

line;

- Integrated calibration;
- Double workbench of choice;
- Automatic line of choice;
- "WRAP" automatic packaging machine;
- Transport line;
- Hot glue coupling;
- Automatic Palletizing;
- Lot consisting of a automatic spatula machine with 12 satellites of the brand "FRANTECER, LDA"; A single disc booth;
- Lot consisting of three complete press systems with measures 41x41x4, 33x60x3 and 50x50x3.
