# Steriman<sup>®</sup> Gel

## HANDS SANITIZER

TO BE USED WITHOUT WATER

**Steriman gel<sup>®</sup>** is a hand sanitizing gel for frequent use, not aggressive because, thanks to the hydroalcoholic base of which it is composed, unlike normal soap, it does not attack or eliminate the protective coat of the skin.

Thanks to its ingredients it has antimicrobial properties, capable of killing germs and bacteria quickly.

This gel does not require rinsing, does not grease, does not stain and is rapidly absorbed. It is able to hydrate the skin leaving the clean, soft and pleasantly scented hands.

Thanks to the convenient packaging, **Steriman gel<sup>®</sup>** is also very practical and ideal for sanitizing your hands in any situation day if you don't have soap and water, such as on public transport, at the airport, after handling money, to sanitize our baby's hands so that he doesn't take risks if he puts his hands to his mouth.

**Steriman gel<sup>®</sup>** is comfortable and effective even at home to freshen your hands, sanitize them before cooking and to remove at the same time the unpleasant smells on the skin.

**Directions for use:** apply directly to the hands and massage until completely absorbed. Use several times a day if needed.

### EXTERNAL USE

In case of contact with eyes, rinse thoroughly with water.

DO NOT SWALLOW. Keep out of reach of children.

### INGREDIENTS

Alcohol denat., Acqua, Propylene glycol, Carbomer, Glycerin, Sodium Hydroxide, Citral, Citronellol, Geraniol, Hydroxycitronellal, Linalool, d-Limonene, CI 42090.
